

## **ITDS Business Consultants becomes part of Redmore Group**

**Utrecht, 20 December 2018** - Redmore Group, part of House of HR, grows in strength with the arrival of ITDS Business Consultants. With this addition to the portfolio, the group offers its clients in the financial services sector a total package in the field of projects, staffing and consultancy. From advice to implementation.

### **Leading position in the financial sector**

Redmore is a leader in the financial sector, with a turnover of almost one hundred and thirty million euros and 1,600 highly skilled permanent employees after the acquisition. The group's portfolio consists of market leaders such as Talent&Pro, the largest seconder within financial services, Triple A - Risk Finance, an authority in actuarial and risk management, and Profource, specialist in ERP, Finance and Control.

### **Strategy Delivery**

ITDS Business Consultants is a leading consultancy firm for financial service providers with more than 175 employees in the Netherlands and Poland. For more than twenty years ITDS has been working on successful strategic projects for the most important Dutch and international insurers, banks and pension funds. The strengths of ITDS lie in drawing up and/or implementing a strategy. A consultancy organization, strong in achieving results. ITDS, like the other labels within Redmore Group, will continue to operate independently.

### **Integrated advice**

The acquisition will enable financial service providers to be offered an integrated advice and implementation service. This integrated advice consists of consultancy, secondment, digitisation and risk management, underpinned by an in-depth knowledge of the sector, and relevant laws and regulations. This makes Redmore the most complete consultancy party for financial service providers. With the aim of improving the performance of its clients.

---

**Edwin van den Elst, CEO of Redmore:** "ITDS fits entirely within the culture of our group in terms of energy and entrepreneurship, and also complements our services perfectly. We see a strong increase in the demand for total packages from our clients and with the arrival of ITDS as a consultancy organisation, we can respond to this even better. At the same time, this growth enables us to offer our own colleagues a broader career perspective

**Arjen de Boer, the new Managing Partner of ITDS is also looking forward to the collaboration:** "By becoming part of the Redmore Group and benefitting from its expertise and strength, we can expand our services and serve our customers even better. Changing consumer behaviour and new technology is in turn changing the market, and IT is becoming an increasingly important driver for innovation. The expertise of ITDS in the field of cost reduction, risk management and digital transformation fits in seamlessly. With House of HR, as parent company, we can accelerate our growth objectives in the Netherlands and expand abroad in addition to our successful branch in Poland".

For our consultants, this offers a unique opportunity to develop and apply their expertise more broadly, in terms of the total solutions that we can offer together.

---

## **About Redmore**

Redmore combines the expertise of Profource, Talent&Pro and Triple A - Risk Finance. Together they employ more than 1,400 specialised professionals, who design and implement solutions in the areas of Risk & Compliance, financial administration, process improvement and flexibility and project realisation, and take care of ERP implementations and the staffing of primary and secondary processes at banks and insurers. Redmore Group has a progressive and enterprising approach to devising and implementing innovative solutions in financial and business services and government and healthcare institutions.
